Overview

The **Style - Marker** page allows users to import and modify pattern information into **YuniquePLM** from the Gerber **AccuMark** system. An AccuMark PLM integration setup is required to add a Style Marker. More details can be found within the *YuniquePLM AccuMark Integration* user guide.

Style - Marker

1. Select the **Style** drop-down arrow within the left-hand navigation bar.
2. Click on **Style Search** to open the *Style Folder*.
3. Locate and select a preferred **Style**.

Refer to the *Style Folder Overview User Guide* for further information.

Style

Comment	Modified By
Changes have been made to this page.	

The **workspace** contains:

- **Copy:** Duplicate a Style Marker workflow page from another Style.
- **Link/Break Link:** This toggle button “connects or disconnects” the current image from the Image Folder. Editing and updating linked images will apply the changes globally. Break the link if the edited image is only for the selected style.
- **Preview:** Create a report containing the Style Marker details.
- **Change Log:** Lists all additions and modifications made within the Styles Marker page.
- **Marker Area:** Add pattern information from AccuMark’s storage database.
- **Marker Spreadsheet:** This is an averaging section matching Fabric Type and Width as criteria.
- **Style Header Information:** Expand the Style Header, using the green arrow, to reveal the Style’s details.
- **Comments:** Add a comment to share with other viewers.

Style Folder-Style Marker User Guide V8.X

Style Header Information

The Style's details are listed within the style header information section of the *Style - Marker* page.

1. Click the **top green arrow** to expand/collapse the Style header information area.

2JE0025 - 1 ^

Comments

Include a note or instructions affecting this style.

1. Click the bottom **green arrow** to expand/collapse the *Comment(s)* section.
2. Press the **+ Add New** button, then type *comments* into the textbox.

The screenshot shows the 'Spring 2021 Style-Marker' interface. At the top, it displays the status 'In Progress / Assigned To: Admin 1 / Planned End: 2/19/2020'. Below this is a table for 'IMPERIAL' markers with columns: L, LBF, AVG, Fabric Type, Marker Name, Location, Description, Efficiency, Width, Length, Usage, Usage Loss, Usage Loss %, Total Usage, Adjusted Usage, and # Models. A 'Marker Spreadsheet' section follows with columns: Fabric Type, Width, # Markers, Avg. Usage (Yd), Avg. Total Usage (Yd), Avg. Adjusted Usage (Yd), Avg. Efficiency, Avg. Total Area (SqYd), Avg. Total Perimeter (Yd), Avg. Corners, and Avg. Notches. The '1DR0008 - Spring Dress' section is highlighted. At the bottom, the '0 Comment(s)' section is expanded, showing a red box around the upward-pointing arrow next to the comment count and another red box around the '+ Add New' button.

3. Once finished, select the **save** button.

This screenshot shows the 'New Comment' form. The text 'Changes have been made to this page.' is entered into the comment box. A red box highlights the green 'save' button (a padlock icon) in the top right corner of the form. The '0 Comment(s)' section is expanded above the form.

4. Now the newly added comment will appear in the *Comment(s)* section. Click the **pencil** icon to edit the existing comments or click the **+ Add New** button to enter additional comments, if needed.

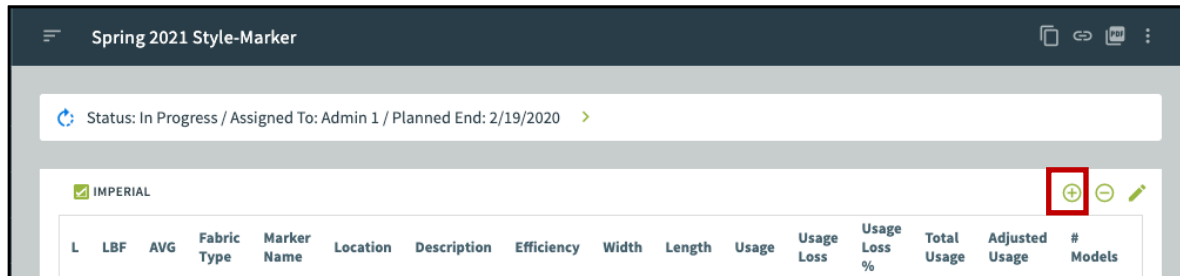

This screenshot shows the '1 Comment(s)' section. The comment 'Changes have been made to this page.' is displayed, along with the user profile 'Charlene Quinones' and the timestamp '12/4/2019 5:03 PM'. A red box highlights the entire comment section, including the '1 Comment(s)' header and the comment content.

Style Folder-Style Marker User Guide V8.X

Add an AccuMark Marker

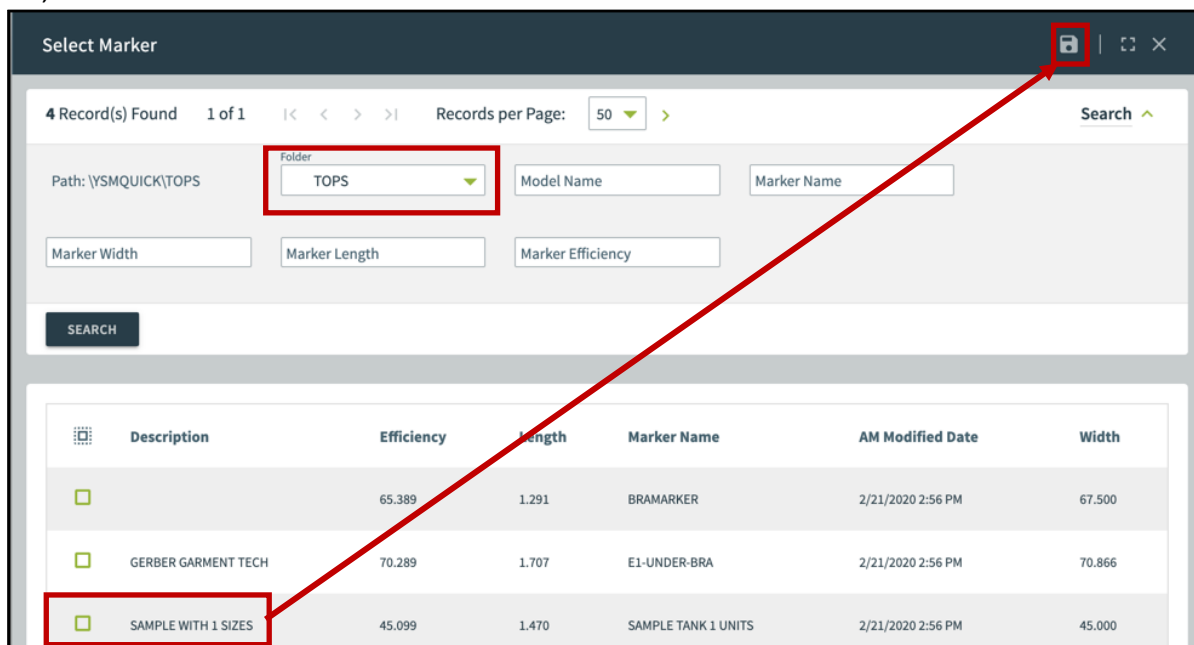

This most commonly used feature easily integrates AccuMark Markers into YuniquePLM.

1. Import a marker from the AccuMark database by clicking the **add** button. A new window opens.

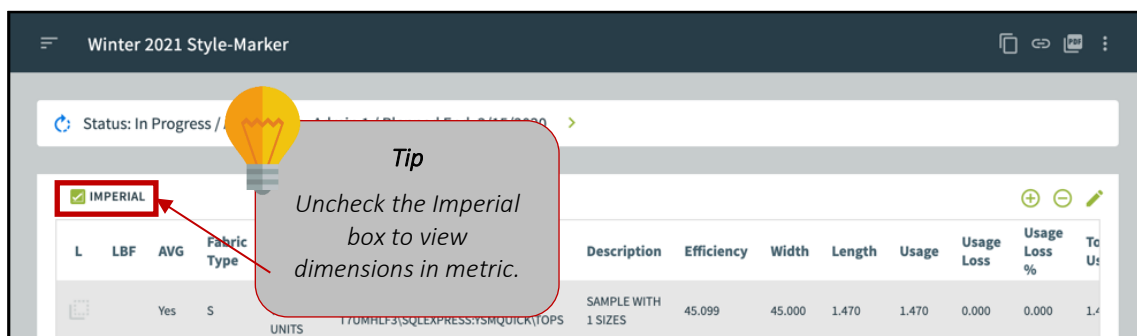

2. Use the **Folder** drop-down to navigate through AccuMark's storage area hierarchy. This is where the desired *AccuMark* marker is saved. *Note: An AccuMark PLM integration setup is required to add a Style Marker. Refer to the YuniquePLM AccuMark Integration user guide for further details.*

The window refreshes once a selection is made from the folder drop-down. Select a **marker** from the list, then click **save**.

3. The selected marker will appear in the *Style-Marker* workflow main page. Each entry will contain the linked symbol and will update whenever the page is refreshed or reopened. If unlinked, then every field can be edited.

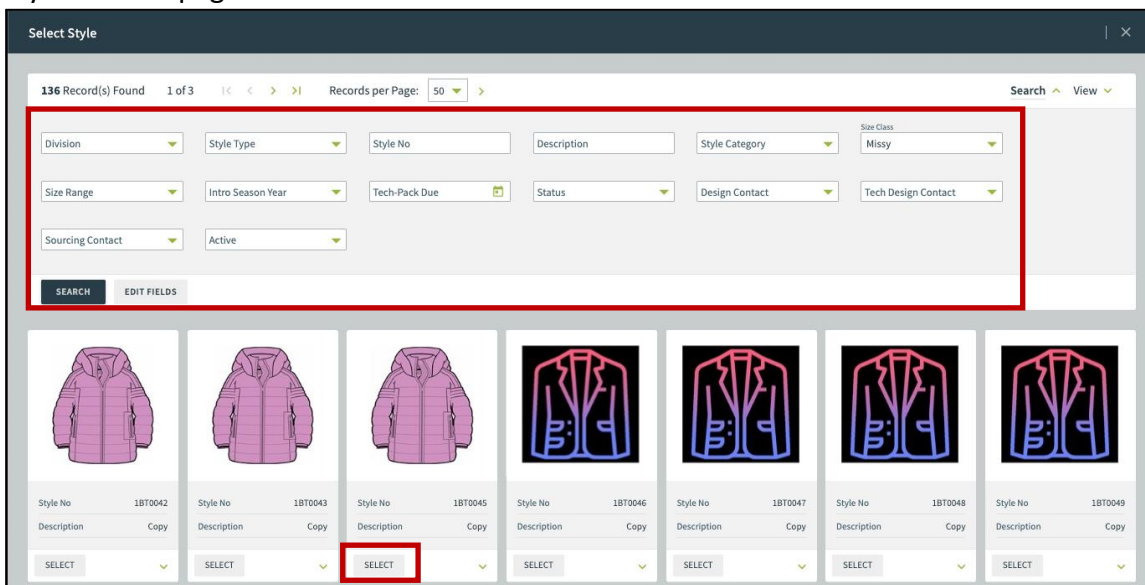

Style Folder-Style Marker User Guide V8.X

Copy Another Style's Marker

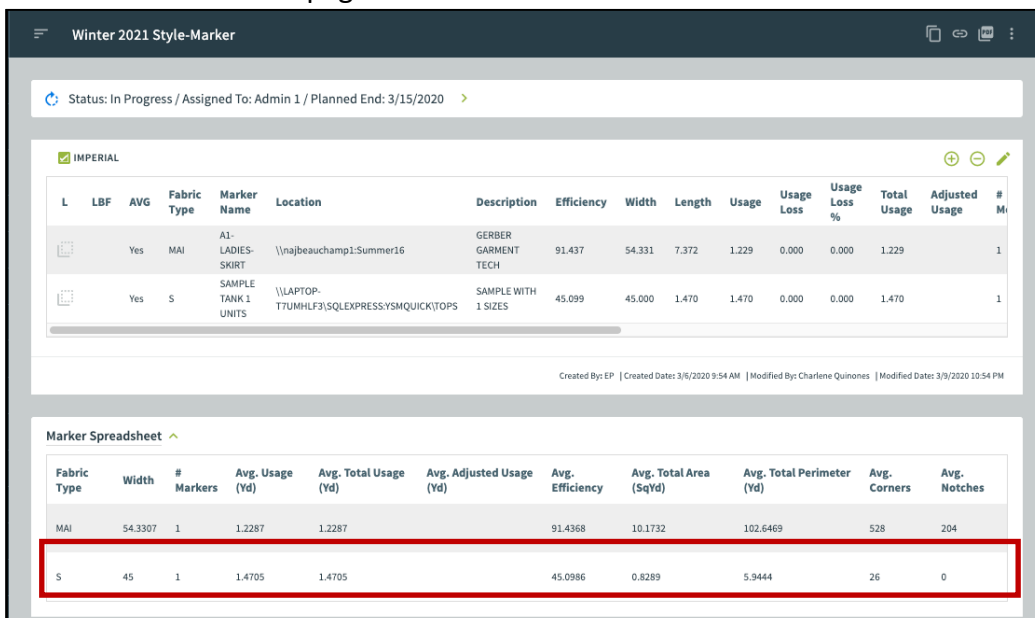

1. Another way to add a marker is to copy one associated to another style within **YuniquePLM**. Click the **copy** button to open its window.

2. Use the **search fields** to filter the selections accordingly and choose an appropriate style to copy the marker page. Click the desired Style's **select** button. The page closes and returns you to the main Style-Marker page.

3. Now the copied marker items as well as the associated Marker Spreadsheets are listed in the Style-Marker workflow main page.

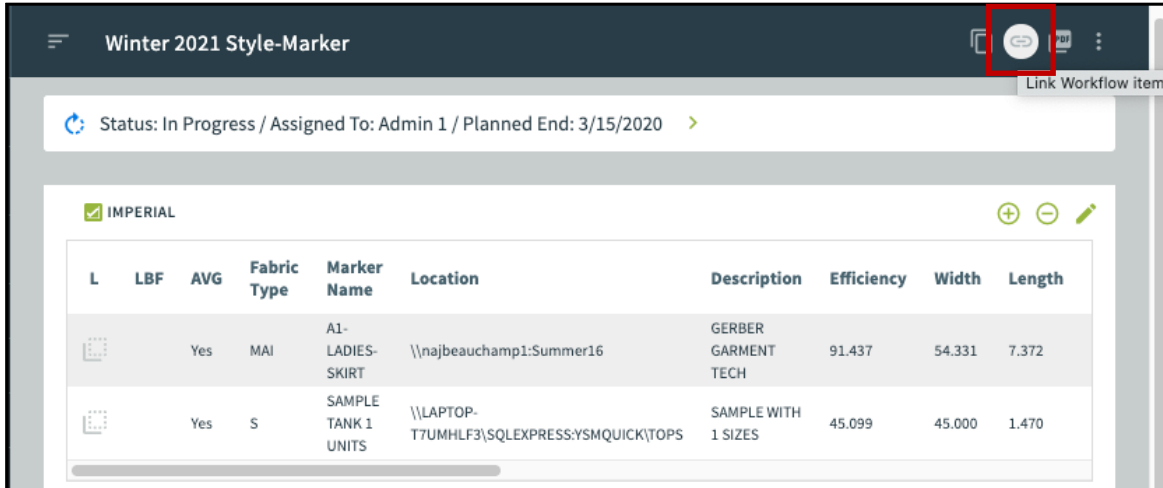

Style Folder-Style Marker User Guide V8.X

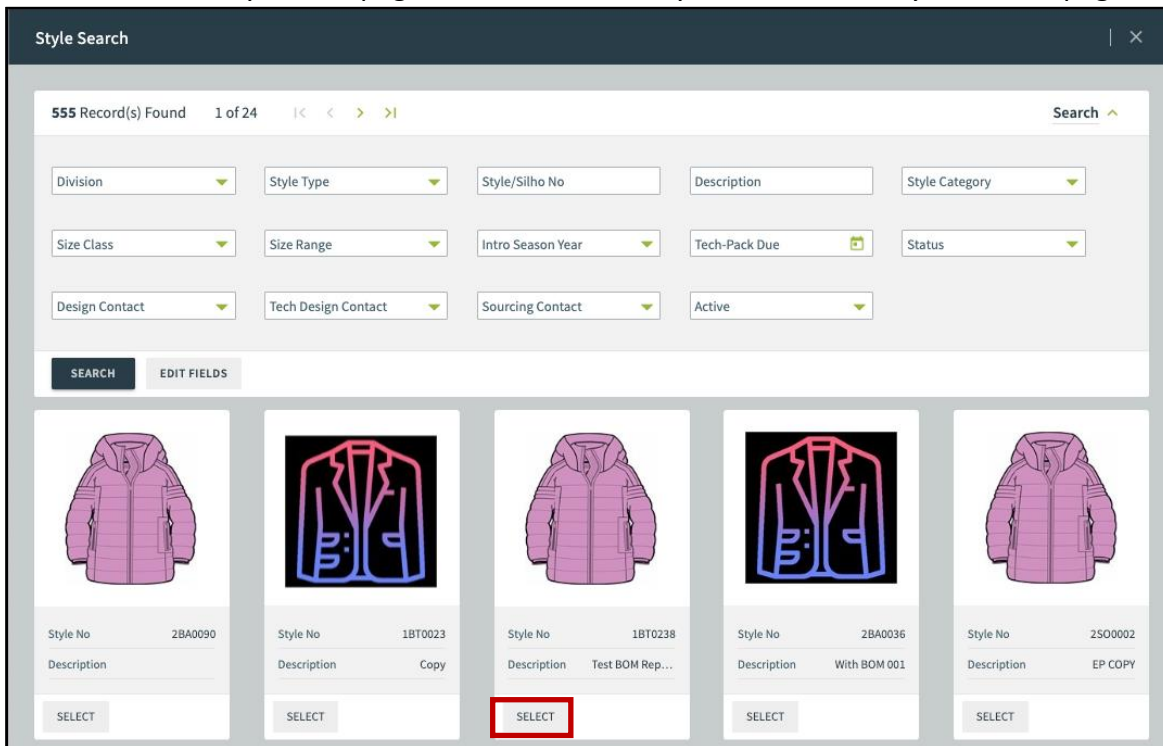

Link

Tie a Style-Marker to the current selection and seamlessly update styles when needed.

1. Link the current style to another by pressing the **link** button. A new window with a list of Styles is shown.

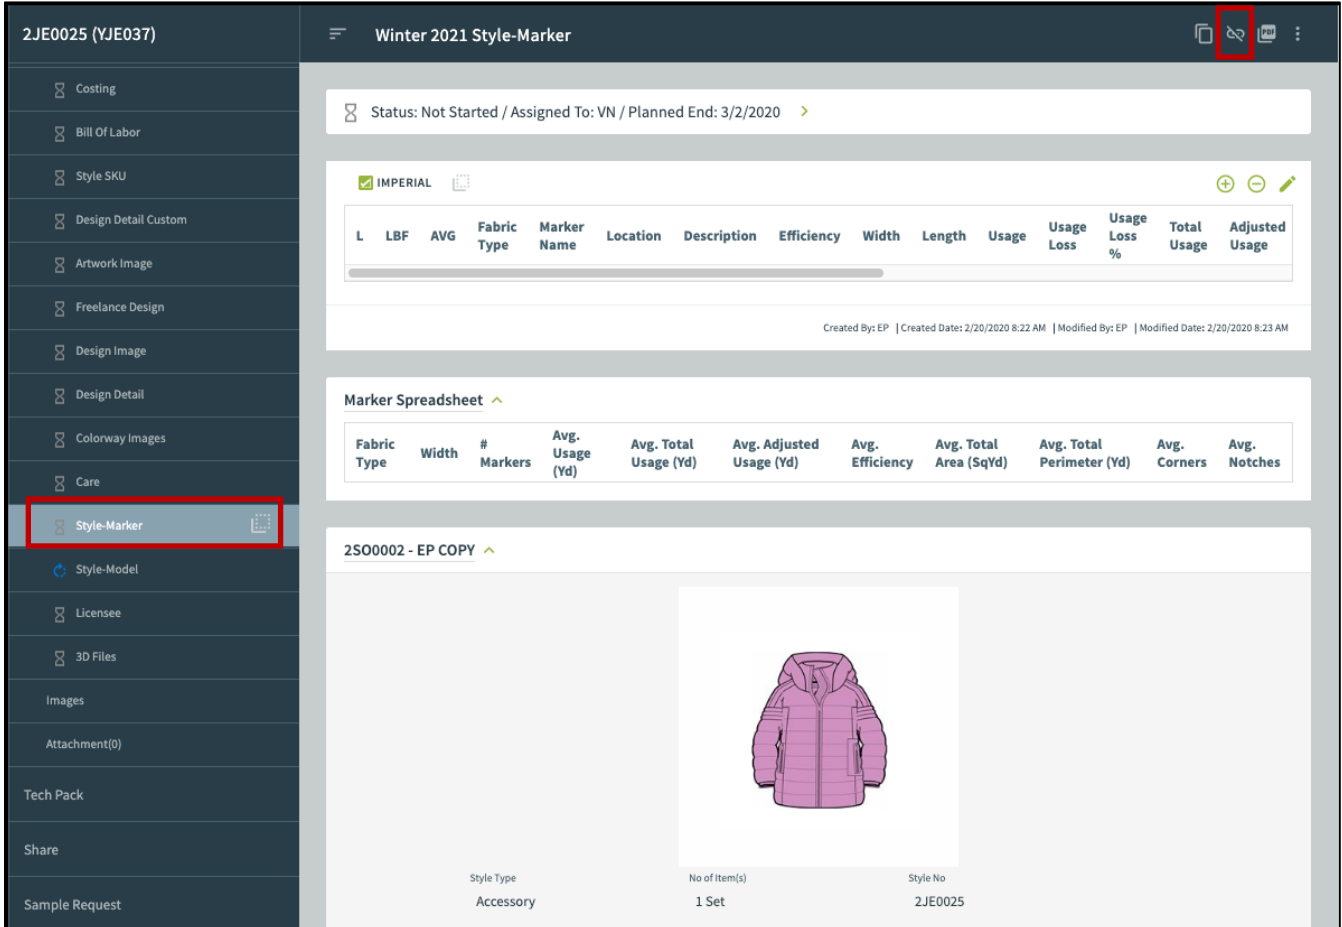

2. Locate a desired style from the list of available styles. Press the desired Style's **select** button to link with the current style. The page closes and returns you to the main *Style-Marker* page.

Style Folder-Style Marker User Guide V8.X

- The *Style-Marker* page now displays a *Break Link* button and the linked icon (*within the left navigation bar*) which signifies the link between both style-markers. If the style-marker is updated, the linked style will also update.

The screenshot displays the 'Style-Marker' page for 'Winter 2021 Style-Marker'. The left navigation bar includes options like Costing, Bill of Labor, Style SKU, Design Detail Custom, Artwork Image, Freelance Design, Design Image, Design Detail, Colorway Images, Care, **Style-Marker**, Style-Model, Licensee, 3D Files, Images, Attachment(0), Tech Pack, Share, and Sample Request. The main content area shows a status bar, a table of markers, and a 'Marker Spreadsheet' section. A 'Break Link' icon is highlighted in the top right corner of the page header.

L	LBF	AVG	Fabric Type	Marker Name	Location	Description	Efficiency	Width	Length	Usage	Usage Loss	Usage Loss %	Total Usage	Adjusted Usage
[Table content is mostly obscured by a horizontal bar]														

Fabric Type	Width	# Markers	Avg. Usage (Yd)	Avg. Total Usage (Yd)	Avg. Adjusted Usage (Yd)	Avg. Efficiency	Avg. Total Area (SqYd)	Avg. Total Perimeter (Yd)	Avg. Corners	Avg. Notches
[Table content is mostly obscured]										

2SO0002 - EP COPY

Style Type: Accessory | No of Item(s): 1 Set | Style No: 2JE0025

- If a global update is not desired, select the **Break Link** icon then select **Yes**.

Break Page Link

You are about to break the page link for the following workflow:

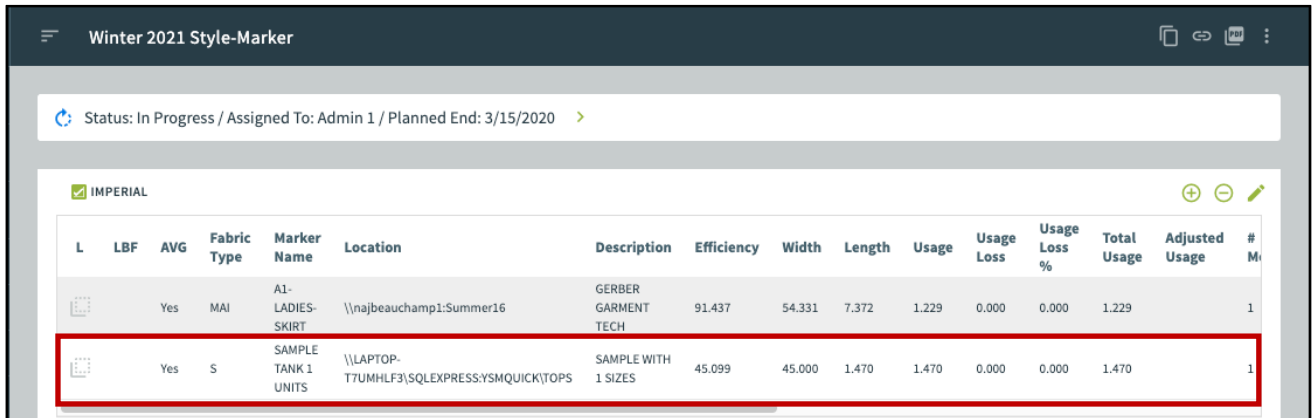

Name: Style-Marker
Source: 2SO0002 (EP COPY)

Are you sure you want to continue?

Tip
Quickly open the AccuMark application by pressing the Launch Easy Marking button.

UserDefined5

Style Folder-Style Marker User Guide V8.X

Within the Marker Details tab:

- **Include in Average** will calculate an average of the markers with the same fabric type. If unchecked, the marker will not be included in the bottom averaging portion on the marker screen.
 - To utilize the **Usage** fields, both the **Length** and **Placed Bundles** fields must have a value greater than 0.
 - In the **Usage Loss %** field enter a multiplier like '1.02' to calculate 2% of the Usage value.
 - The **Usage Loss Yd/M** will calculate when the page is saved.
 - The **Adjusted Usage Yd/M** value is an optional field where Yards/Meter values are expected but are not actually calculated from other fields.
 - **Comments** are only saved on the page and will display in the Preview printouts.
 - If there is not a check mark in the **Linked to CAD** field, then all other fields on the page will be editable and will not match the data saved by the AccuMark system. However, this can be rechecked and refreshed with the data from the AccuMark system as well.
3. Once changes are made to the Marker details tab, press **save**.
 4. Click the **Image** tab to view the marker representation. Each image is downloadable by clicking the **download** button at the bottom of every image. Also, quickly launch the AccuMark application by pressing the **Launch Easy Marking** button.

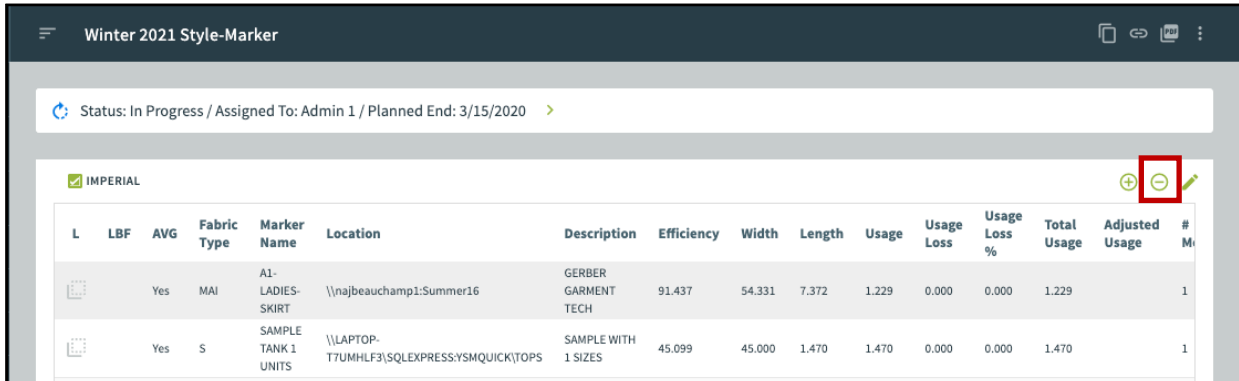

5. Once changes are made, click **close**.

Style Folder-Style Marker User Guide V8.X

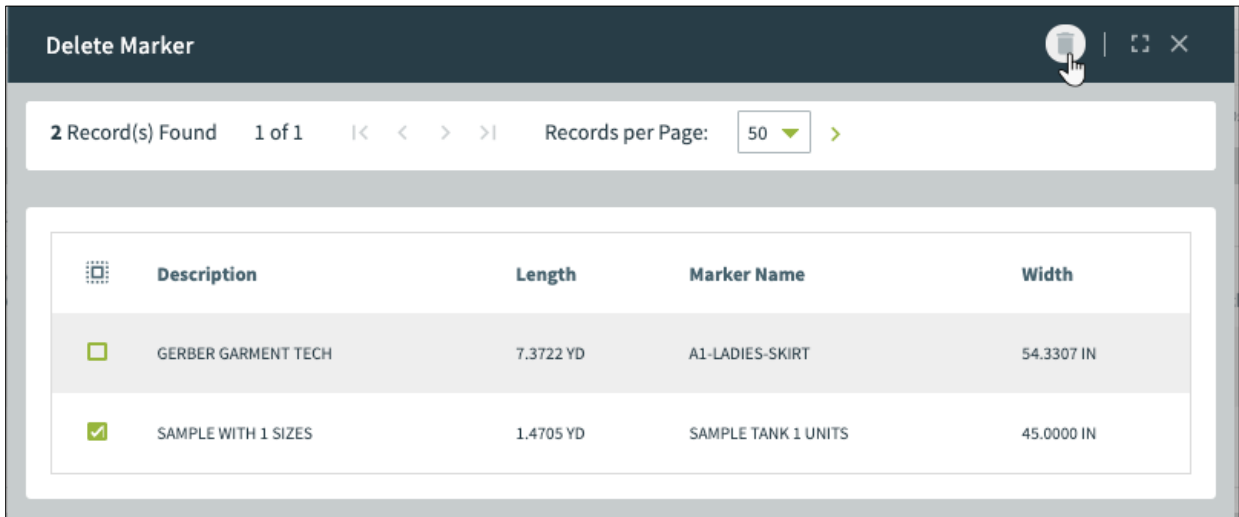

Remove Markers

1. Delete existing markers by pressing the **remove** button. A pop-up window opens.

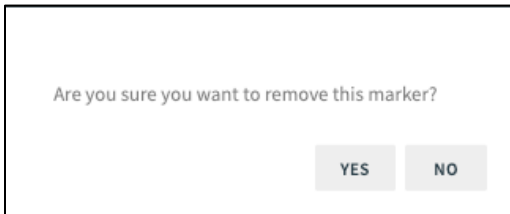

L	LBF	AVG	Fabric Type	Marker Name	Location	Description	Efficiency	Width	Length	Usage	Usage Loss	Usage Loss %	Total Usage	Adjusted Usage	#
		Yes	MAI	A1-LADIES-SKIRT	\\najbeauchamp1:Summer16	GERBER GARMENT TECH	91.437	54.331	7.372	1.229	0.000	0.000	1.229		1
		Yes	S	SAMPLE TANK 1 UNITS	\\LAPTOP-T7UMHLF3\SQLEXPRESS:YSMQUICK\TOPS	SAMPLE WITH 1 SIZES	45.099	45.000	1.470	1.470	0.000	0.000	1.470		1

2. Place a **checkmark** next to each desired marker then click the **trash** icon to delete the selections.

Description	Length	Marker Name	Width
<input type="checkbox"/> GERBER GARMENT TECH	7.3722 YD	A1-LADIES-SKIRT	54.3307 IN
<input checked="" type="checkbox"/> SAMPLE WITH 1 SIZES	1.4705 YD	SAMPLE TANK 1 UNITS	45.0000 IN

3. A confirmation window opens. Select **Yes** to proceed or **No** to cancel. The popup automatically closes and returns to the *Style-Marker* main page.

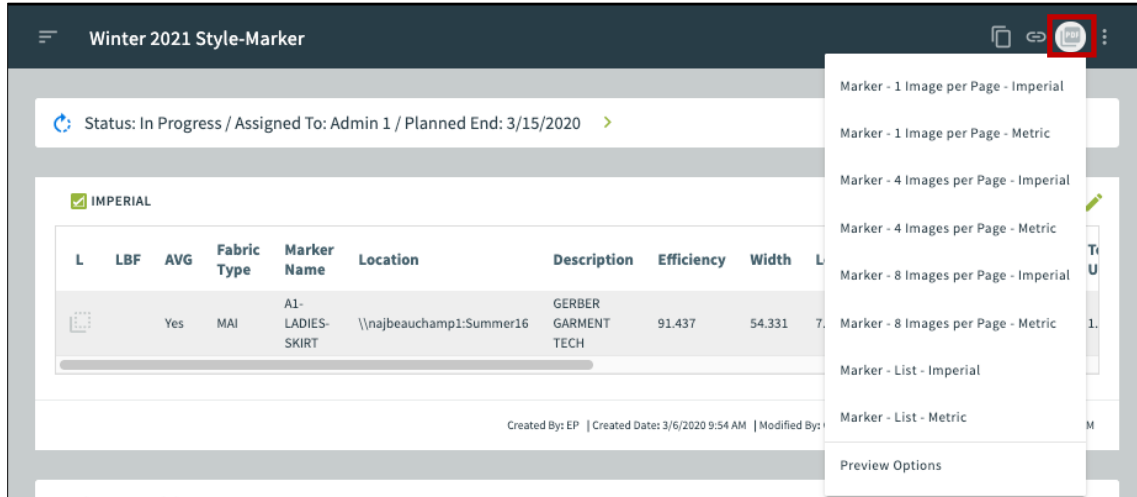

Are you sure you want to remove this marker?

YES NO

Style Folder-Style Marker User Guide V8.X

Preview

1. Generate a *Style - Marker* report by clicking the **preview** button. A drop-down opens to reveal a list of available reports.
2. Select a **report** from the list.

3. The user is immediately notified with two notifications, where the first states that the report is currently being generated, while the second states the report has been successfully generated. Click on the notification to view the report.

Note: Users may also select *Preview Options* located at the bottom of the list. This functionality allows the user to select a preferred language and default report. Keep in mind, these settings are specific to this workflow.

4. Click the **Close** button to return to the *Style - Marker* main page.
